PROFILE

As a fresh graduate from Kazan Federal University, my name is Anasfirly Muhammad, and I am a skilled front-end developer with expertise in React. With experience collaborating with UI/UX designers and back-end developers, I have completed 2 full-stack projects and 3 front-end projects, showcasing my ability to work effectively within a team. I am passionate about creating intuitive and user-friendly interfaces and am always eager to further develop my skills in the field.

WORK EXPERIENCE

Front end developer

faoTech   2022-2023

- Developed 5 fully responsive web applications using React JS.
- Specialized in creating reusable JSX components with React, streamlining front-end development and improving code reusability.
- Utilized state management libraries such as Redux to efficiently manage complex application data.
- Collaborated with UX/UI designers to implement visually compelling and intuitive interfaces.
- Integrated with RESTful APIs using Axios to fetch data from back-end systems.
- Implemented responsive and accessible design patterns to optimize the user experience across various devices and platforms.
- Familiarity with the utility-first CSS framework, Tailwind CSS, to create scalable and maintainable style sheets, allowing for efficient front-end development and consistent design patterns.

FEATURED PROJECTS

KIMA ⬀
Fullstack Web Application
A digital platform that helps universities assess the relevance of their programs in specific fields and their alignment with the competency requirements of the job market.

TurunTangan ⬀
Fullstack Web Application
